

PROJECT 30 WORKSHEET
BUILDING A HOME PAGE FOR THE WEB

Name: _____ **Class:** _____ **Due Date:** _____

Follow the Worksheet for Project 30. Check yourself off as you complete each of the steps outlined in the Worksheet as you use a text editor and a web browser to construct your own home page.

Step 1: Adding the Text Information to the Template

Check yourself off when you have completed adding all of the text for Carlos's Home Page and checking it for accuracy from the web browser.

Step 2: Collecting Media Objects and Preparing GIF Images

Check yourself off when you completed adding all of the media objects to the Home Page. Be sure to go to your web browser and text each of the links to make sure they function properly.

Step 3: Adding Internet Links to other Web Pages

Check yourself off when you have completed all of the work for Step 3 and you have checked and verified that all of your Internet links work. Print a copy of the finished Carlos Home Page and submit with this worksheet.

Step 4: Placing the Page on a Web Server

Describe where you found a web server to possibly locate your personal home page.

How much will it cost?

How much disk space will they provide online for your web materials?

What other features do you get with your account.?

☐ Step 5: Learning More about HTML

Check yourself off when you have found some links on the Internet related to web page design. List the URLs for at least three Internet sites you found beyond those given in the Web tutorial and briefly describe the content:

Site 1:

Site 2:

Site 3:

☐ Step 6: Creating Your Own Home Page

Check yourself off when you have completed designing your own home page. Turn in an electronic copy of your personal web page along with the media objects.

What is the URL for the location of your personal web page if you have placed it online?
